5/20/80

Dear Jerry,

Your 5/17 came yesterday.

Whatever else there may be on that tape I'm not going back to listen to it. Not only do I not have time, I'm just not going to and wouldn't if I had time. I told you many times that if you want me to pay attention to antyhing, leave out your political grabgae, what you consider to be jokes and that terrible noise you call singing. If I come to any of this the tape gets turned off.

The local papers carried nothing about Stoner's trial. I saw one bit on TV and heard of radio that he'd been convicted. The prosecutor was on the radio saying that Stoner's own testimony convicted him. Of course I don't know anything about that or anything involved in the trial.

Sorry there's been no word of John. Hope I'm wrong but from the first I've thought that something could have happened to him.

Sincerely,
